

TRULY CONNECTED HOME

CAPITAL CUSTOM HOMES

- Control your perimeter lights from anywhere, or set them to the schedule you want and they will turn on and off automatically. No more coming home to a dark home.
- Lock and unlock your front door with a touch of a button, from anywhere in the world. No more keys.
- You will never leave your garage door open again with your Chamberlain MyQ Smart Door opener.
- All wiring will be Cat6 and quad shield coax. All organized and distributed through a structured wire panel in your basement.
- Answer your video doorbell from anywhere in the world on your smart phone.
- Control the heating and cooling in your home with a smart thermostat. Program the temperature you want, and enjoy the comfort and efficiency of your system.
- WIFI will be distributed through world class wireless access points by Ubiquiti. Strategically placed in your home to provide superior coverage.
- All you have to do is provide the internet connection through your own or your internet providers router.

Don't worry - Capital has made arrangements for a professional integrator to set up your smart phones and tablets. They will walk you through the operation of your new connected home.
